

Pollution (1)

NAME

Can you spot the differences between the two pictures below?  
Colour all the sources of pollution you can see.  
Write about two of these in the box below.

Pollution:

## Pollution (2)

NAME \_\_\_\_\_

Read the poem below and think about what the old lady did.  
Draw a picture in the empty box.

### I know an old lady

I know an old lady who killed all the grass,  
To build a by-pass she killed all the grass.  
She killed all the grass as well as the fishes,  
She killed all the fishes as well as the trees,  
She killed all the trees as well as the spiders,  
That wriggled and jiggled and tickled beside her.  
She killed all the spiders that ate all the flies;  
Perhaps she'll die.

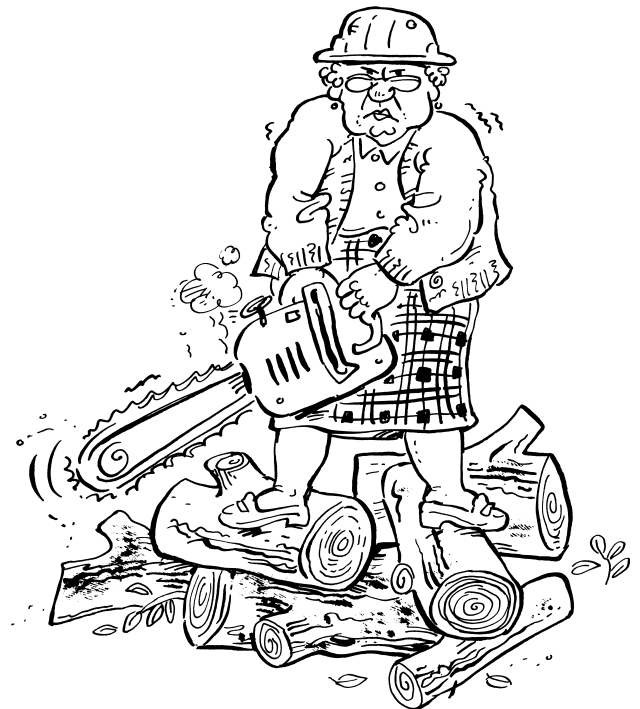

I know an old lady who polluted the air,  
She didn't care!  
She polluted the air —  
Sh-e-e-'s no longer THERE.

I know an old lady who killed all the flies,  
I don't know why she killed all the flies;  
Perhaps she'll die.

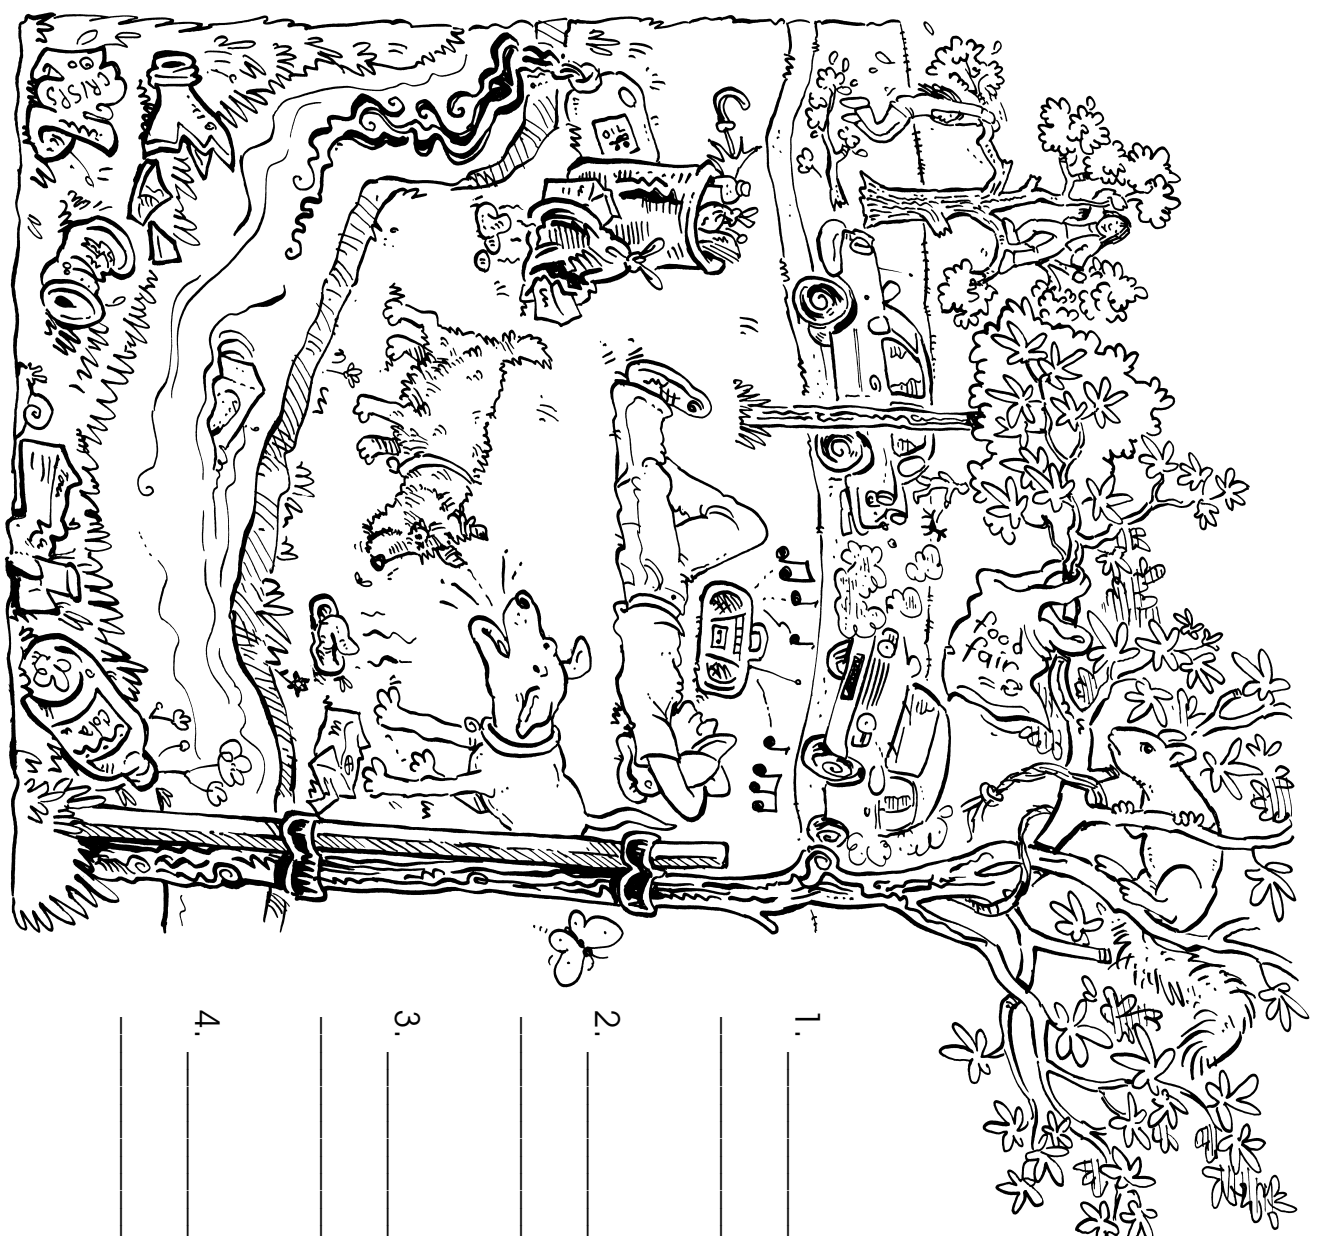

I know an old lady who killed all the spiders,  
That wriggled and jiggled and tickled beside her.  
She killed all the spiders that ate all the flies,  
I don't know why she killed all the flies;  
Perhaps she'll die.

I know an old lady who killed all the trees,  
What a wheeze!  
She killed all the trees.  
She killed all the trees,  
As well as the spiders,  
That wriggled and jiggled and tickled beside her.  
She killed all the spiders that ate all the flies,  
I don't know why she killed all the flies;  
Perhaps she'll die.

I know an old lady who killed all the fishes,  
Tasty dishes!  
She killed all those fishes as well as the trees,  
She killed all the trees as well as the spiders,  
That wriggled and jiggled and tickled beside her.  
She killed all the spiders that ate all the flies,  
I don't know why she killed all the flies;  
Perhaps she'll die.

NAME \_\_\_\_\_

Colour all the causes of pollution you can see in the park.

How many can you find?

List four ideas for reducing the pollution here, or in your own park.
